FIORANO

ORIGINAL ACCESSORIES

599 HGTE HANDLING KIT, INCLUDES FF STYLE
SHOT PEENED WHEELS

599 HGTE HANDLING KIT

599 GTB
FIORANO

The kit has a renewed setup; the height of the car off the ground has been reduced and the center of mass lowered still further with a consequent reduction in load transfer. Car performance has also been improved thanks to new tires, which have been specially optimized for this outfitting. They are characterized by a compound that allows even more effective grip for better road holding, combined with excellent ease of control.
