***New Ferrari 430 Scuderia – Product Information***

Dear Sirs,

We would like to inform you that, starting from July delivery, all cars 430 Scuderia for the U.S. market will have, as standard equipment, a new carbon fibre kit.

**Body carbon fibre kit (cod. Modis CEXU)**

This kit will include a carbon fibre rear diffuser, the door sill in carbon fibre with a stainless steel plate at the front, the wing on front bumper and the bucket of the headlamps both made of carbon fibre.

Consequently the following customization items will no longer be available, only on the U.S. market:

**Carbon fibre exterior rear (Modis CEXR code)**

It includes the engine bonnet and rear diffuser in carbon fibre.

**Door sill cover in carbon fibre (Modis BATC code)**

Door sill in carbon fibre with a stainless steel plate at the front

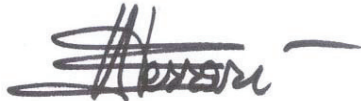

**Carbon fibre exterior front (Modis CEXF code)**

It includes the wing on front bumper and the bucket of the headlamps both made of carbon fibre.

Best regards.

Andrea Ferrari

Head of Product Marketing
