PERSONALIZATION PROGRAMME

MARCH 2019

Ferrari

F8 TRIBUTO

STANDARD CONFIGURATION

EXTERIOR COLOURS

The Ferrari F8 Tributo can be customised by choosing from 16 available in range colours:

- ARGENTO NÜRBURGRING
- BIANCO AVUS
- BLU ABU DHABI
- BLU MIRABEAU
- BLU POZZI
- BLU TOUR DE FRANCE
- GIALLO MODENA
- GRIGIO ALLOY
- GRIGIO INGRID
- GRIGIO SILVERSTONE
- GRIGIO TITANIO
- NERO DAYTONA
- NERO DS 1250
- ROSSO CORSA
- ROSSO MUGELLO
- ROSSO SCUDERIA

to highlight some of the exterior details some areas are painted black:

- Central front spoiler
- Outer sill
- Rear diffuser

The standard 20" rims are made of cast aluminium alloy and painted in the matte silver colour.

Please see the attached sketch for details.

STANDARD CONFIGURATION

INTERIOR COLOURS

The standard interior of the Ferrari F8 Tributo can be requested in 15 different colours of leather that follow a set pattern:

- BEIGE TRADIZIONE
- BLU MEDIO
- BLU STERLING
- BORDEAUX
- CARTA DA ZUCCHERO
- CHARCOAL
- CIOCCOLATO
- CREMA
- CUIOIO
- IROKO
- NERO
- ROSSO FERRARI
- SABBIA
- TERRA BRUCIATA
- TORTORA

The cockpit floor mats are made from carpet and can be ordered in 9 different colours:

- BLU
- BORDEAUX
- CASTORO
- GRIGIO SCURO
- NERO
- NUOVO CUIOIO
- NUOVO ROSSO
- OTRANTO
- TESTA DI MORO

All the interior details, which include the dashboard trim, air vents, centre bridge, door handle inserts and the steering wheel plate, are painted in the Grigio Nart shade of grey. The dashboard's lower control console is painted in matte Black colour.

The upper section of the cockpit is upholstered in black fabric.

The only standard carbon fibre detail is the horizontal dashboard insert.

Please see the attached sketch for details.

RACING SEATS

As standard the F8 will come with mechanical comfort seats. As an alternative, it is possible to order carbon-fibre racing seats in two different configurations:

The racing style with an insert in perforated Alcantara® Starlight.

**Corsa carbon fibre racing seats
(Modis Code RSCH)**

The iconic Daytona-style design, with horizontal stripes.

**Daytona carbon fibre racing seats
(Modis Code RSCD)**

The desired seat size must always be specified in Modis: Small, Medium, Large.

By choosing the option ALSE the entire racing seat (RSCH) will be upholstered in Alcantara®.

**Alcantara® full seats upholstery
(Modis Code ALSE)**

The racing seat may also be combined with a mechanical lifter so that the driver may raise his seat.

**Racing seat lifter
(Modis Code RSES)**

Please check the product grid for availability in specific markets.

4-POINT SAFETY HARNESES

Customers who are looking for an even more thrilling driving experience, whether on the road or on the track, may opt to have 4-point safety harnesses, which are anchored to the rear of the cockpit. They are available in 4 colours:

- Nero
- Rosso
- Giallo
- Blu

**4-Point safety harnesses
(Modis Code 4HAR)**

Please check the product grid for availability in specific markets.

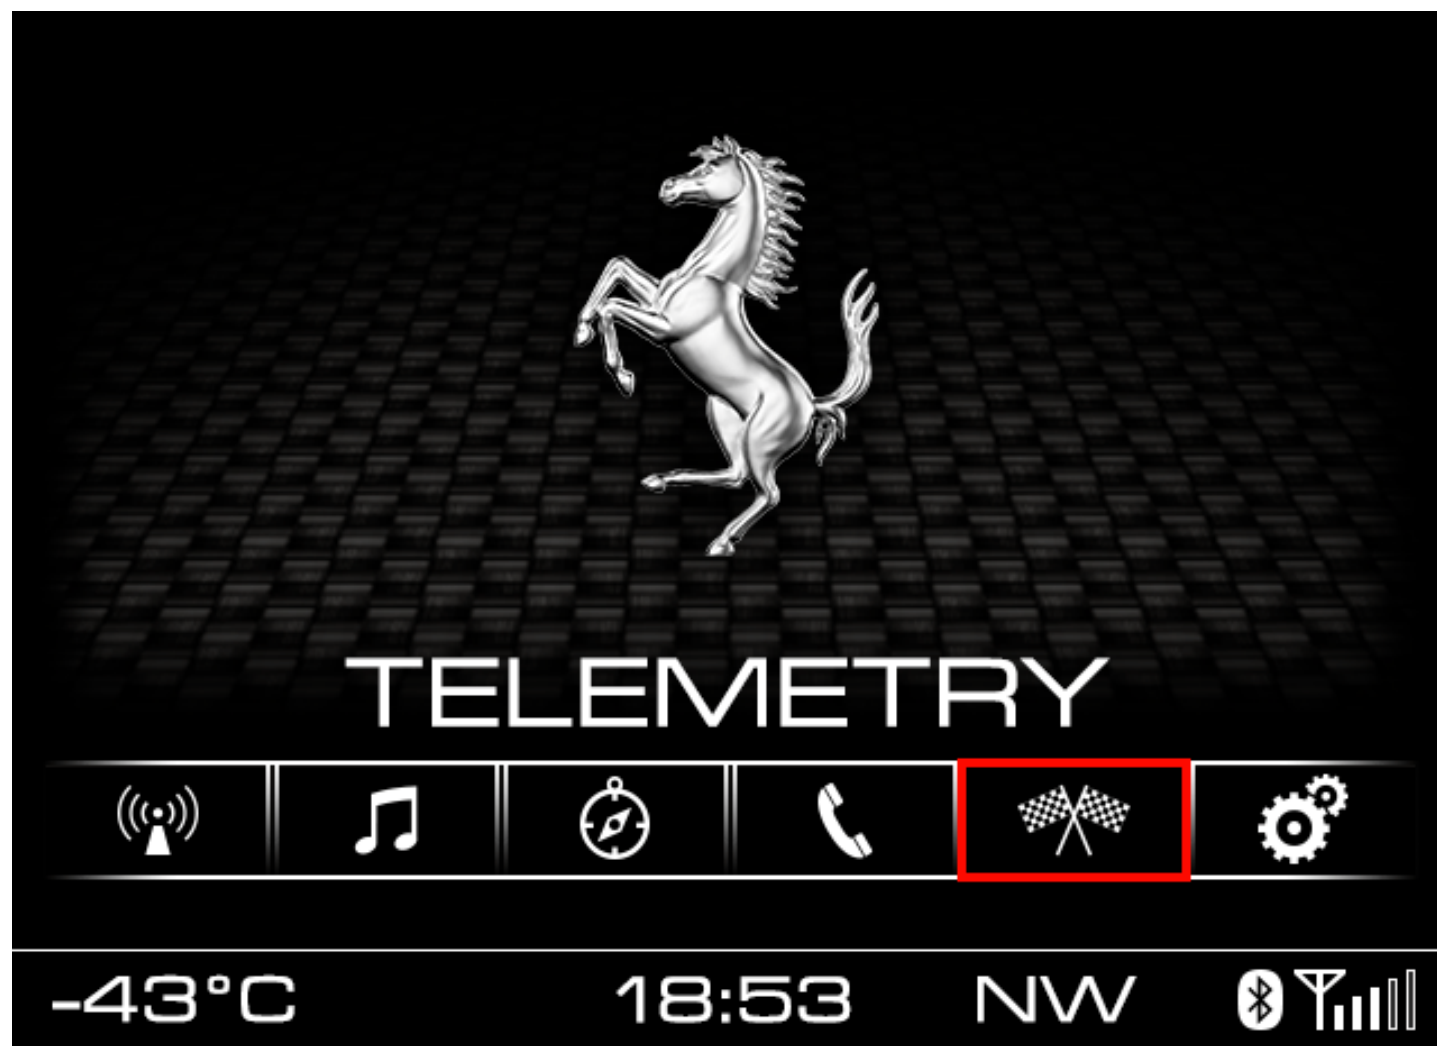

FERRARI TELEMETRY

The Ferrari F8 Tributo can be fitted with an advanced telemetry system, which is completely integrated with the car's multimedia system.

The telemetry system enables the driver to record sporty driving sessions on a track and analyse the data collected during these sessions. The system can be directly accessed from the car's multimedia menu or via an external device such as an iPad or a portable PC.

The system uses the high-precision GPS aerial fitted in the car to find the car's position on a pre-installed course or a route the driver decides to record.

Telemetry kit
(Modis Code DEPK)

FAST-LAP MONITORING

During a telemetry session the driver can monitor the car's performance on a fast lap thanks to a specific display on the TFT-screen, which sits on the dashboard.

This display enables the driver to locate the car's position on the race track and determine the lap time as well as the gap between the actual lap time and the fastest.

ON-BOARD SESSION ANALYSIS

At the end of a telemetry session a "virtual race engineer" will help the driver to analyse the delivered performance, underlining the main critical points regarding underperformance (e.g. anticipated or delayed braking). An analysis of the main telemetry data can be carried out directly in the car's cockpit to deepen the virtual engineer's indications.

The available indications are:

- Speed
- Braking
- Gear change
- Acceleration
- Lap time

SESSION ANALYSIS VIA THE FERRARI TELEMETRY APP

An even more profound performance analysis can be carried out by sending the data collected during the session to an iPad (via a WiFi hot spot) or a computer (Windows compatible; via a USB stick), analysing the data with the specifically created FERRARI TELEMETRY application, developed in collaboration with our car engineers.

The Ferrari Telemetry App offers an advanced level of performance analysis and enables drivers to:

- Compare laps from different sessions
- Compare performance levels saved on the USB stick (also from other FERRARI TELEMETRY clients)
- Use an entire additional set of indications, registered during the telemetry session

A passenger, provided with an iPad®, can use the codriver function to monitor lap performance in real-time.

HIGH-PERFORMANCE TYRES

To make the most of the Ferrari F8 Tributo's performance, Michelin Sport Cup 2 high-performance tyres are now available as an option. Thanks to the use of different rubber compounds developed exclusively for MotorSport, the Michelin Sport Cup 2 increases grip and handling, improving performance on the track and on the road.

High-performance tyres
(Modis Code TYHP)

UNDERBODY COVER IN CARBON FIBRE

In order to further reduce weight, a carbon-fibre underbody cover painted in black has been introduced as an option.

Carbon fibre in underbody cover
(Modis Code CEFO)

LITHIUM BATTERY

The lithium battery, which is smaller and lighter than a traditional battery, makes for improved engine start-up even when the battery is partially discharged. The battery is supplied together with a dedicated charge maintainer that is not compatible with standard batteries.

It also includes the passenger side battery cover in alluminium.

Lithium battery
(Modis Code BATL)

Please check the product grid for availability in specific markets.

OPTIONAL COLOURS

The Ferrari F8 Tributo can be ordered in traditional historic Ferrari colours.

- AVORIO
- AZZURRO CALIFORNIA
- BLU SCOZIA
- BLU SWATERS
- CANNA DI FUCILE
- GRIGIO FERRO MET
- GRIGIO SCURO
- ROSSO DINO
- ROSSO FIORANO
- VERDE BRITISH RACING

Historical Ferrari colours (Modis Code PNTH)

Finally for the new Ferrari F8 Tributo the new Bianco Cervino is available as exterior paint.

Additional colors (Cod. Modis PNTA)

“SCUDERIA FERRARI” SHIELDS

It is possible to order the classic “Scuderia Ferrari” shields for the F8 Tributo’s fenders.

“Scuderia Ferrari” shields on fenders (Modis Code LOGO)

OPTIONAL COLOURS

The Ferrari F8 Tributo is available to order in the show colour, Blu Corsa, by selecting the code PNTN.

Special colours
(Modis Code PNTN)

TWO-TONE BODY PAINTING

When the code BIC2 (two-tone body painting) is selected the roof and front pillars are painted in Nero DS 1250.

**Two-tone body painting
(Modis Code BIC2)**

BONNET UPPER INSERT

To emphasize the sporty nature of the Ferrari F8 Tributo the bonnet upper insert can be painted in matt black by selecting the code COLL without any price surcharge. If COLL is not selected the bonnet insert will come standard in body color.

Please be informed you will find this option preselected in your POS car configurator, but you will need to select it in MODIS.

**Bonnet upper insert painted in matt black
(Modis Code COLL)**

FORGED RIMS

The standard 20" rims of the Ferrari F8 Tributo are made of cast aluminium alloy and painted in matte Aluminium. They can be ordered with an alternative finish.

Aluminum wheels - Glossy Brilliant Silver
(Modis Code RICS)

Aluminum wheels - Matt Grigio Corsa
(Modis Code RMSC)

The Ferrari F8 Tributo may also be ordered with 20" forged rims instead of the standard cast alloy rims. The rims are available in the following finishes.

Forged wheels - Glossy Brilliant Silver
(Modis Code RMSV)

Forged wheels - Matt Grigio Corsa / Diamond Cut
(Modis Code RSFD)

Forged wheels - Matt Grigio Corsa
(Modis Code RIFS)

The standard wheel bolts can be replaced with a version in titanium for lighter weight. They are darker than the standard wheel bolts and have a different design.

Titanium wheel bolts
(Modis Code TIWN)

BRAKE CALIPERS

The Ferrari F8 Tributo comes standard with anodised brake callipers in graphite black. The brake callipers can be ordered in the following glossy colours.

Aluminum brake callipers
(Modis Code CALA)

Black brake callipers
(Modis Code CALB)

Blue brake callipers
(Modis Code CALC)

Grigio Silverstone brake callipers
(Modis Code CALD)

Gold brake callipers
(Modis Code CALG)

Rosso Corsa brake callipers
(Modis Code CALR)

Rosso Scuderia brake callipers
(Modis Code CALS)

Giallo Modena brake callipers
(Modis Code CALY)

CARBON FIBRE WHEEL CUPS

Wheel caps can be ordered in glossy carbon fibre with the Prancing Horse in metal.

Carbon fibre wheel cups
(Modis Code CUPC)

CALC

CALG

EXHAUST PIPES

The rear of the Ferrari F8 Tributo features two exhaust tail pipes that come standard in a polished steel finish. The tail pipes can be ordered in two different finishes. The first is made of Titanium.

Titanium exhaust pipes
(Modis Code EXAT)

The second is made of black ceramic finish.

Sport exhaust pipe
(Modis Code EXA3)

EXTERIORS IN CARBON FIBRE

On the Ferrari F8 Tributo numerous exterior components are available in carbon fibre with a glossy finish.

Starting from the front.

Carbon fibre front central spoiler
(Cod. Modis FCWS)

Carbon fibre front side spoilers
(Modis Code CEXG)

Carbon fibre S-Duct insert
(Modis Code CEAI)

Carbon fiber headlight insert
(Modis Code CEXF)

Carbon fibre boot upper insert
(Cod. Modis CIZB)

Please see the attached sketch for details.

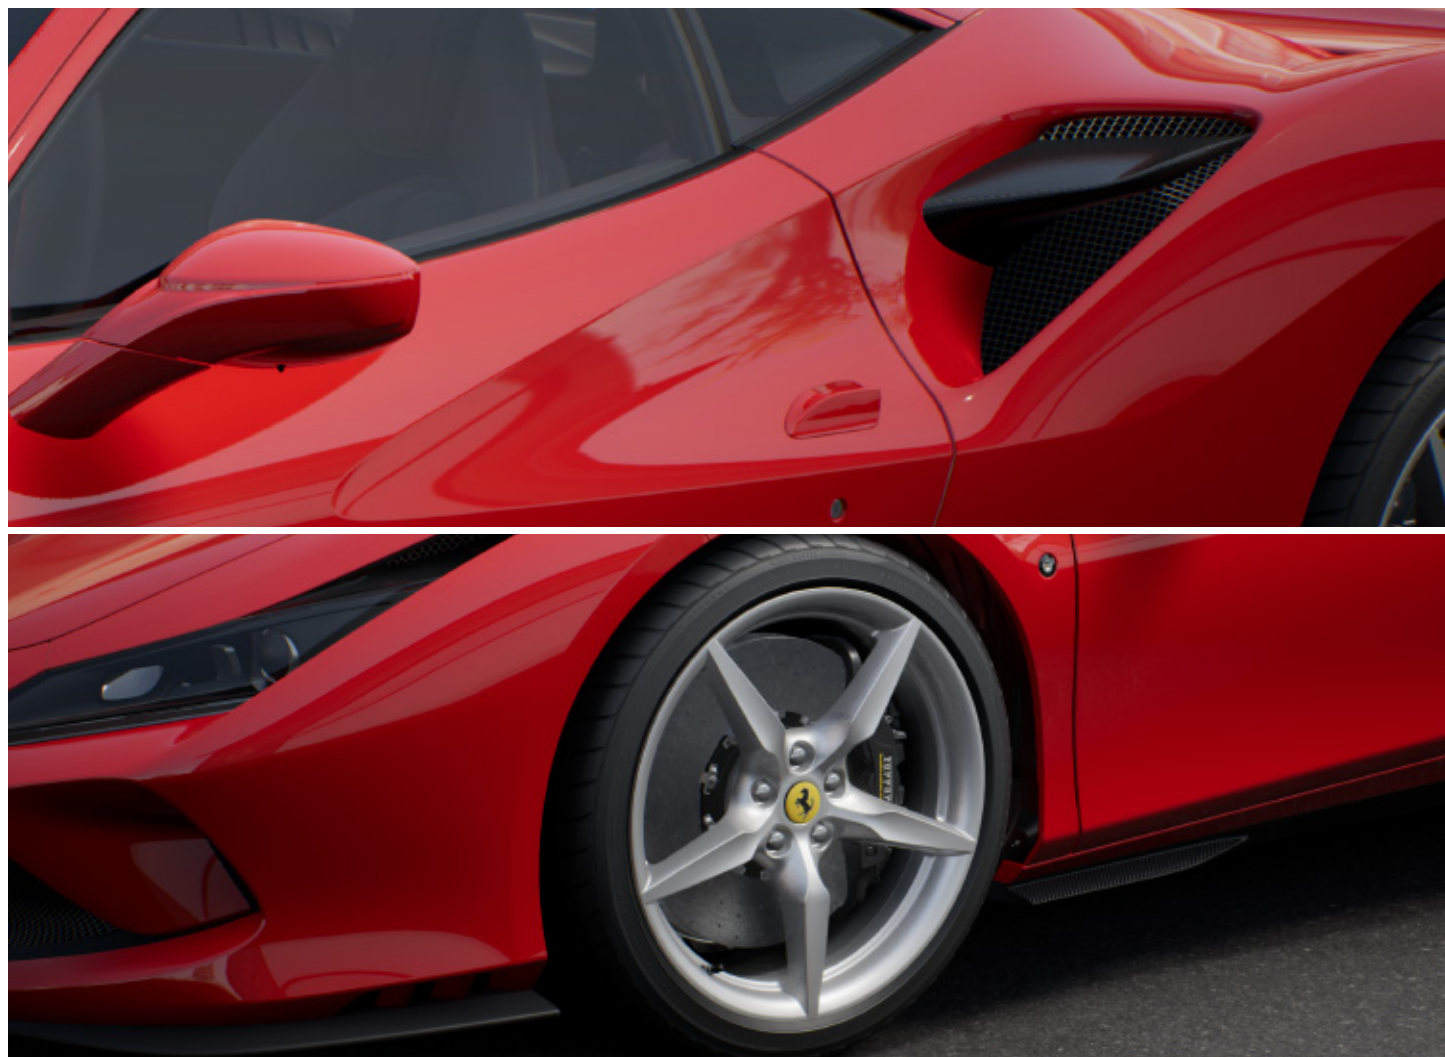

CARBON FIBRE EXTERIOR

There are two components on the side of the vehicle that are available in glossy carbon fibre.

Carbon fibre exterior sill cover
(Modis Code CEXS)

Carbon fibre side air splitters
(Modis Code CEIS)

Please see the attached sketch for details.

EXTERIORS IN CARBON FIBRE

The list of exterior parts that can be ordered in glossy carbon fibre continue on the rear section of the Ferrari F8 Tributo.

Carbon fibre rear diffuser
(Modis Code CEXD)

Carbon fibre rear boot trim
(Modis Code CERB)

Please see the attached sketch for details.

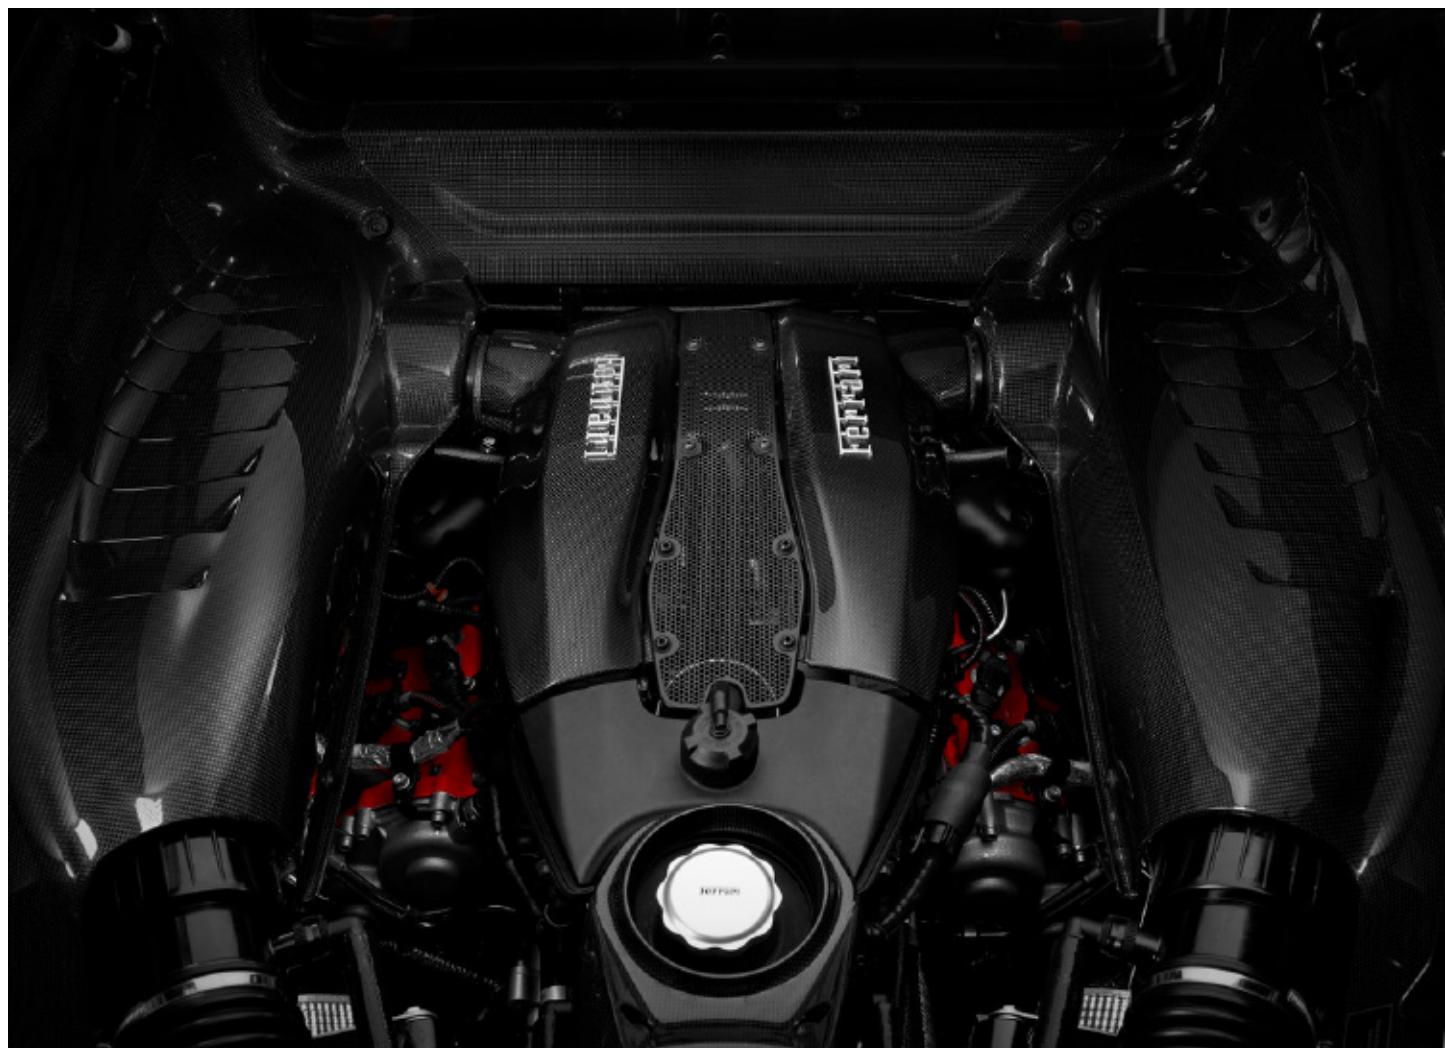

EXTERIORS IN CARBON FIBRE

The engine bay of the Ferrari F8 Tributo can also be enhanced with glossy carbon fibre options. Engine compartment panels entirely in exposed carbon fibre: these include the two side panels, the centre panel underneath the rear window and the centre panel near the oil cap.

Carbon fibre engine covers (Modis Code CEL2)

The Ferrari V8 engine is further enhanced and celebrated by the glossy carbon fibre intake plenums, which highlight its sportiness.

Carbon fibre engine manifold (Modis Code MNFC)

SEATS

The seats of the Ferrari F8 Tributo can be personalised in terms of both functionality and design.

In terms of functionality, Full-Electric seats can be requested, which feature the following additional functions:

- Pneumatic side-bolster adjustment
- Lumbar support adjustment
- Driver side seat memory
- Heating
- Steering column with electric adjustment

Full-electric seats

(Modis Code RSFE)

In terms of design, to enhance the range of comfort seats, in addition to the iconic Daytona style with horizontal inserts and to diamond-quilted seats, a new style of seat with a center seat stripe it is also available.

New “Style” seats

(Modis Code STYL)

Diamond pattern style seats

(Modis Code LOSS)

Daytona style seats

(Modis Code DAYT)

Inserts in leather or Alcantara are available for the Daytona seats.

Daytona leather inserts

(Modis Code STP1)

Daytona Alcantara® inserts

(Modis Code STP2)

Please see the attached sketch for details.

SEATS

The comfort seats, Style, and the racing seats, Corsa and Daytona, can be personalized with leather or Alcantara® coloured stripes.

Leather seats stripes
(Modis Code CLDT)

Alcantara® seats stripes
(Modis Code ALDT)

Please see the attached sketch for details.

LEATHER INTERIOR OPTIONALS

The standard interior of the Ferrari F8 Tributo can be ordered by choosing one of the 15 different colours of leather available for individual seats.

Leather upper dashboard
(Modis Code DSH5)

Leather lower dashboard
(Modis Code DSH7)

Leather central tunnel
(Modis Code CTU4)

Leather steering wheel
(Modis Code STW1)

Please see the attached sketch for details.

LEATHER INTERIOR OPTIONALS

Leather upper area and headliner
(Modis Code ULEZ)

Leather mid-cabin zone
(Modis Code LERZ)

Leather rear wall
(Modis Code SHF1)

Leather seat backrest
(Cod. Modis BAC0)

Please see the attached sketch for details.

LEATHER INTERIOR OPTIONALS

**Leather outer door panel
(Modis Code LTDX)**

**Leather inner door panel
(Modis Code LTDP)**

Please see the attached sketch for details.

ALCANTARA® INTERIOR OPTIONALS

The interior of the new Ferrari F8 Tributo can be personalised with the following options in Alcantara®.

Alcantara® lower dashboard
(Modis Code DSIA)

Alcantara® central tunnel
(Modis Code CTUA)

Alcantara® inner door panel
(Modis Code ALDP)

Alcantara® outer door panel
(Modis Code ALDX)

Please see the attached sketch for details.

ALCANTARA® INTERIOR OPTIONALS

When the steering wheel is ordered in Alcantara® (STWA) the upper and lower arch are in Alcantara® while the handgrips, the airbag and the rear cover are in matching leather.

Alcantara® steering wheel
(Modis Code STWA)

Alcantara® may also be ordered for the following zones.

Alcantara® central seat zone
(Cod. Modis ALCS)

Alcantara® upper area and headliner
(Cod. Modis UALZ)

Alcantara® rear wall
(Modis Code SHFA)

Please see the attached sketch for details.

COCKPIT STITCHING AND EMBROIDERY

The standard interior stitching is tone on tone unless otherwise specified. You can personalize the stitching by selecting a different colour and thickness:

- BEIGE CHIARO
- BIANCO
- BLU
- BLU MEDIO
- BORDEAUX
- CHARCOAL
- CUIOIO
- CUIOIO SELLA
- BEIGE TRADIZIONE
- GIALLO
- TORTORA
- GRIGIO CHIARO
- GRIGIO SCURO
- NERO
- NOCCIOLA
- ROSSO
- TESTA DI MORO
- VERDE

**Colour upon request for standard stitching
(Modis Code STC1)**

**Colour upon request for special stitching
(distance e thickness)
(Modis Code STC2)**

The Prancing Horses on the headrests can be ordered embroidered rather than embossed.

**Embroidered Prancing Horse on headrests
(Modis Code EMPH)**

Please see the attached sketch for details.

OTHER INTERIOR EQUIPMENT AND FEATURES

The safety belts may be ordered in the following colours:

- BEIGE
- BLU
- BORDEAUX
- GIALLO
- GRIGIE
- MARRONI
- ROSSE
- SABBIA

Coloured seat belts (Modis Code CSB1)

Optional red rubber air vent rings may be ordered for the Ferrari F8 Tributo with the code RVEN.

Red rubbers on air vents (Modis Code RVEN)

The cockpit mats, which come standard in the same colour as the carpets, may be personalised to match the interior colours and stitching chosen.

Coloured mats with embroidered logo (Modis Code FLMA)

REV COUNTER

The rev-counter, standard in black, may also be requested in one of the following optional colours:

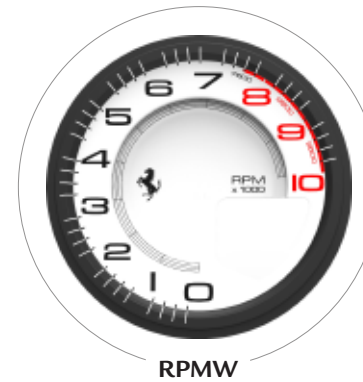

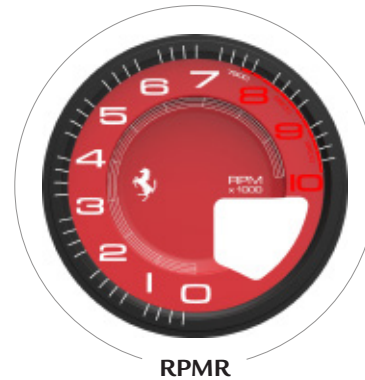

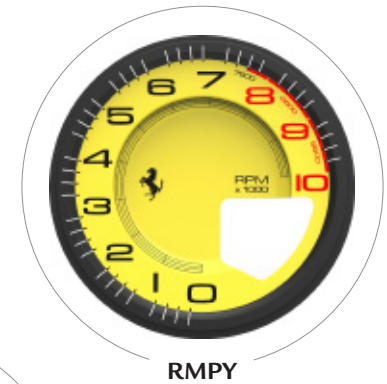

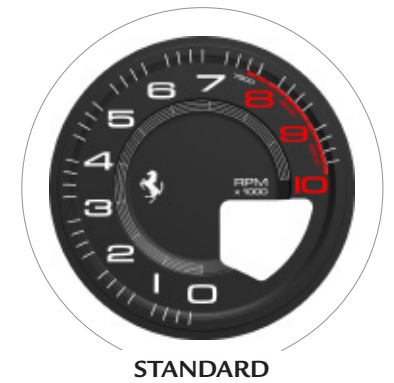

- Giallo
- Rosso
- Bianco
- Alluminio

Yellow rev counter
(Modis Code RPMY)

Red rev counter
(Modis Code RPMR)

White rev counter
(Modis Code RPMW)

Alluminum rev counter
(Modis Code RPMA)

CARBON FIBRE INTERIORS

On the Ferrari F8 Tributo, the dashboard insert comes standard in glossy carbon fibre. The cockpit can be ordered with additional carbon fibre elements.

The carbon fibre instrument zone covers the entire area around the binnacle and the controls to either side of the steering wheel.

Carbon fibre instrument cluster zone
(Modis Code CIIP)

Due to safety regulations the carbon fiber instrument cluster zone is only available with the matte-finish interior carbon fibre (Code Modis CIMP).

Carbon fibre dashboard trim
(Modis Code DATR)

Carbon-fibre steering wheel with LEDs
(Modis Code LEDS)

The carbon fibre driver zone + LEDs includes the following areas:

- Steering wheel lower arc and plate
- Upper arc in carbon fibre with LEDs
- F1 racing shift paddles in carbon fibre
- Carbon-fibre rev-counter frame

Carbon fibre driver zone + LEDs
(Modis Code CIDL)

The bigger racing paddles derived from the 488 Pista can be requested as an option only with the code CIDL (Carbon Fiber Driver Zone). They allow for quicker shifting at any steering angle.

Racing carbon fibre shift paddles
(Modis Code CFPA)

Please see the attached sketch for details.

CARBON FIBRE INTERIORS

Further details in the cockpit can be ordered in carbon fibre.

Carbon fibre door panel
(Modis Code CIPZ)

Carbon fibre inner door handles
(Modis Code CIDH)

Carbon fibre central bridge
(Modis Code CILR)

Carbon fibre sill kick
(Modis Code CISK)

The upper central tunnel can be ordered in carbon fibre. Please note that the arm rest will remain in black leather while the open compartments in the tunnel remain in black Alcantara®.

Carbon fibre upper tunnel
(Modis Code CITZ)

Please see the attached sketch for details.

CARBON FIBRE INTERIORS

All the interior carbon fibre elements come standard with a glossy finish (except for the instrument cluster cover - code CIIP - which is only available in a matte finish). They can be requested in matt finish by selecting code CIMP.

Matt finish for interior carbon fibre elements (Modis Code CIMP)

Please see the attached sketch for details.

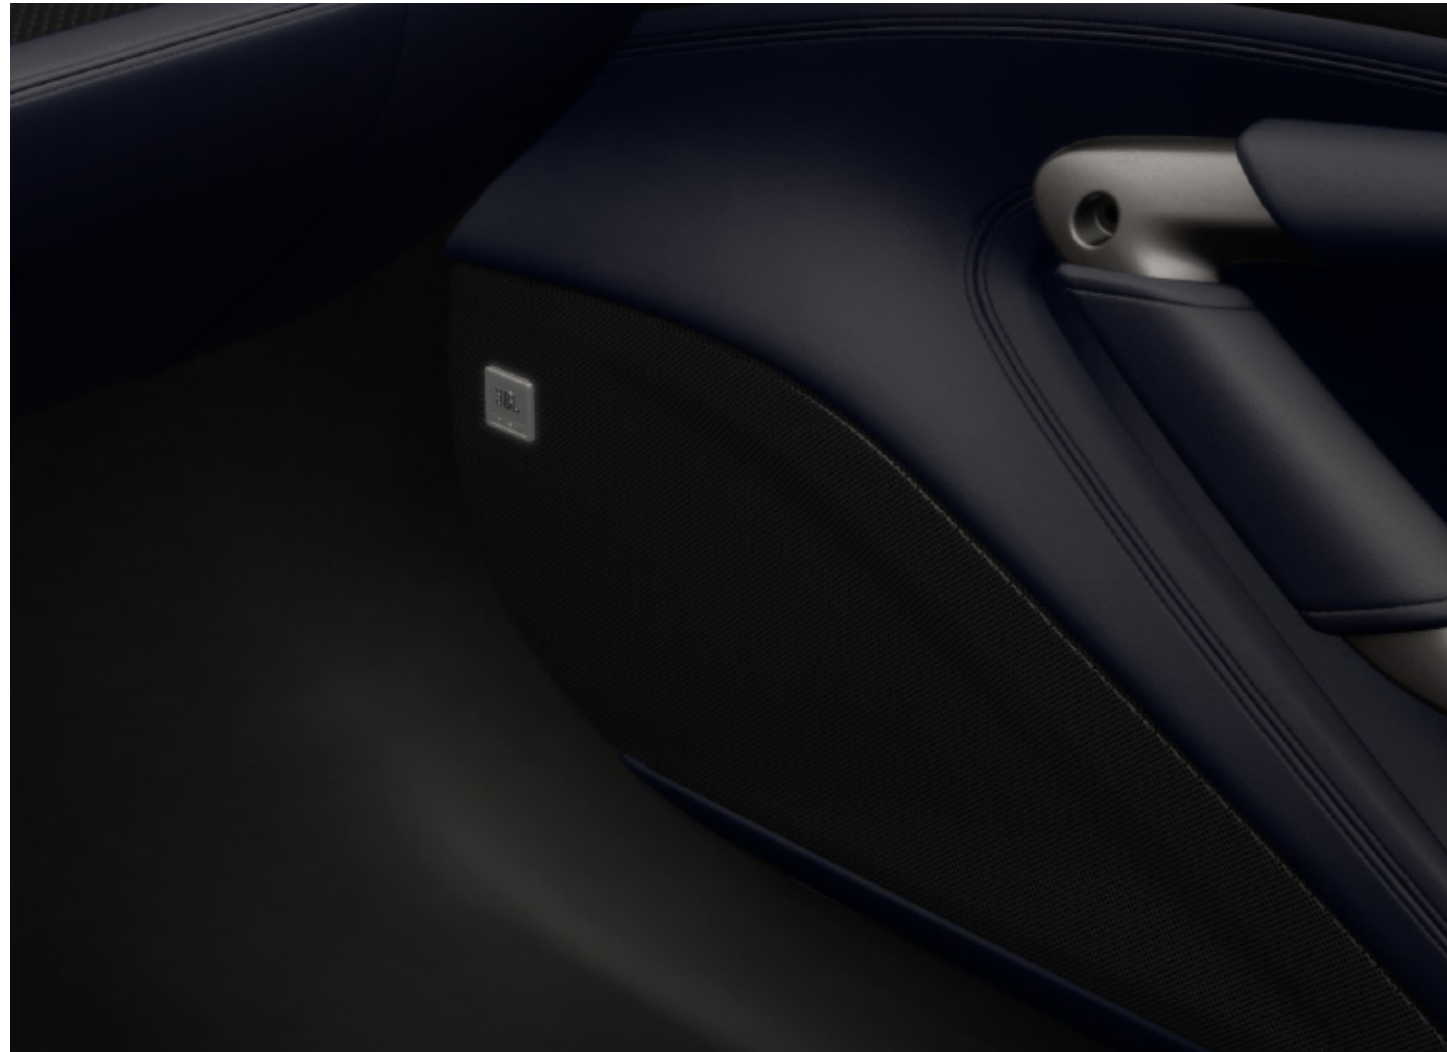

ELECTRONIC EQUIPMENT

Developed exclusively by the engineers at JBL for the Ferrari F8 Tributo, the new optional sound system uses optical fibre to enhance the audio. Thanks to a 12-channel 1500 W amplifier, 12 speakers and QuantumLogic Surround Sound technology, the client is immersed in a new experience comparable to a live concert:

- 2 high efficiency woofers (200 mm) built into the panels of the door
- 3 high efficiency tweeters (25 mm) built into the panels of the doors and into the dashboard upper grille
- 2 high efficiency tweeters (25 mm) built into the rear side panels
- 5 high efficiency Kevlar midrange speakers (80 mm)

Premium HIFI system
(Modis Code SNDH)

ELECTRONIC EQUIPMENT

The new passenger display, also available for the Ferrari F8 Tributo, allows the passenger to share the thrill of the drive by becoming a true co-pilot by interacting with the vehicle's multimedia system, for instance by choosing a favourite destination using the navigation system or by putting on their own music playlist.

The main available functions are summarised below:

- Selected gear
- RPM and speed
- G-force
- Status of the Manettino dial and information on the configurations of the on-board mechanical and electronic systems
- Details of the selected route on the satellite navigation system
- Turn-by-turn route guidance information and the ability to search for POI
- Range indicator with option to search for the nearest petrol stations
- Media source management with Cover Flow and track search by category

**Passenger display
(Modis Code PDIS)**

APPLE CARPLAY

As with all of the cars in our range, it will be possible for the Ferrari F8 Tributo to order the new infotainment and connectivity system developed by Apple for new generation iPhones.

Apple Carplay is a IOS operating system function which will be developed on an ongoing basis over the coming years. The integration of that system into the cars will provide owners with a continually updated state-of-the-art infotainment and connectivity system that requires no updating of the hardware in the car.

Apple Carplay flanks the car's native infotainment system, integrating with its functions and providing evolved connectivity features. The interface allows iPhones to be used directly from the steering wheel via a graphic interface specifically developed by Apple for in-car use.

The basic functions are provided via the «Phone», «Media», and «Navigation with Apple Maps» apps but are flanked by evolved connectivity functionalities such as web radio listening (iTunes radio, Spotify).

APPLE CARPLAY

ADDITIONAL INFORMATION

To guarantee maximum efficiency from Apple CarPlay and all of its functionalities, Ferrari recommends owners keep their iPhone updated with the latest available version of the iOS®.

The addition of new functionalities and support for existing Apps is exclusively at the discretion of Apple® Inc.

It is possible to use third party Apps if they are compatible with Apple CarPlay.

Please go to the Apple website for further information on compatible Apps.

Support for Apps compatible with the Apple CarPlay system is at the discretion of Apple® Inc. and the system's functionalities may vary as a consequence of future iOS® updates.

Go to <http://support.apple.com/manuals/> and <http://www.apple.com/ios/carplay/> for further information.

Markets on which SIRI EYES FREE is available and its functionalities are indicated here:

<http://www.apple.com/ios/feature-availability/#siri-sports>

For future evolutions, please check the list of markets on which Apple CarPlay is available.

To do so, follow the link below:

<http://www.apple.com/ios/feature-availability/#applecarplay-applecarplay>

The table opposite shows the markets on which the system can be ordered.

Apple CarPlay
(Modis Code ACPL)

AVAILABLE ON FOLLOWING MARKETS

- Australia

- Singapore
- Saudi Arabia
- Spain
- South Africa
- USA
- Sweden
- Switzerland
- Taiwan
- Thailandia
- Turkey
- U.A.E.

SATELLITE ANTI-THEFT SYSTEM

A Satellite-based anti-theft device can be ordered to track down the car's position in case of theft. The client can choose between two versions of the anti-theft device: with or without an electronic ADR card.

In the first case the card has always to be with the driver on board of the car, while the service provider immediately contacts the owner in case of theft of the car.

In the second case the anti-theft system does not use an electronic card and therefore the owner has to report the car's theft to the service provider, who can then start to track the car.

Please check the product grid for markets availability.

**One year subscription for SVR UK with card
(Cod. Modis SVR1)**

**SVR system + one year subscription (no card)
(Cod. Modis SVR2)**

**SVR system + one year subscription
(Cod. Modis SVRK)**

PARKING SENSORS

As a supplement to the rear parking sensors that come standard on the Ferrari F8 Tributo, front sensors can also be installed as an option.

Front parking sensors
(Modis Code PAR2)

REAR PARKING CAMERA

The new Ferrari F8 Tributo can be ordered with rear parking cameras with the code PAC1.

Rear parking camera
(Modis Code PAC1)

ELECTROCHROMICH EXTERIOR MIRRORS

The vehicle can be equipped with electrochromic mirrors that automatically dim. This reduces reflected glare from other vehicles that are behind the driver.

Electrochromich exterior mirrors
(Modis Code MIR3)

HOMELINK

The Homelink system allows the driver to conveniently open and close the garage door or front gate from the comfort of their seat.

Garage door openers
(Modis Code HOLK)

ADAPTIVE FRONTLIGHT SYSTEM

The system with turning headlamps offers better vision which guarantees higher road safety.

The light angle is set by three parameters:

- steer angle
- speed
- lateral acceleration

The system deactivates itself during overtaking and parking (avoiding dark areas in the car's lane).

Adaptive frontlight system
(Modis Code AFS1)

FRONT SUSPENSION LIFTER

The front suspension lifter raises the front of the car up to 40MM. Raising to this height one can easily drive over speed bumps or inclined ramps.

The system automatically deactivates itself over 40 km/h. When the front suspension lifter is ordered, the Ferrari F8 Tributo must also be ordered with the Adaptive Front Light System.

Front suspension lifter
(Modis Code ELEV)

FIRE EXTINGUISHER

It is possible to have a fire extinguisher installed in the cockpit. The extinguisher is secured in the area of the passenger footwell.

Handy fire extinguisher
(Modis Code EXT1)

SPACE SAVE SPARE WHEEL

The space save spare wheel is fitted into the luggage compartment and secured with specific retainers. The presence of the space saver spare wheel in the luggage compartment precludes its use for storing luggage.

Spare wheel kit
(Modis Code WHE4)

HEAT INSULATING WINDSCREEN

The heat insulating windscreen reduces the amount of light that enters into the cockpit, lowering the temperature of the dashboard and steering wheel and allowing for more intense and long-lasting vehicle use on the track.

Thermo-insulating windscreen
(Modis Code HAW1)

SMOKER'S KIT

The smoker's kit includes an elegant aluminium ashtray and a cigarette lighter.

Smoker kit
(Modis Code SMOK)

PROTECTIVE FILMS

Transparent, ultra-thin protective films may be ordered to protect the vehicle's paintwork from chipping by stones and from light scratches.

The front bumper protection film covers the following areas:

- Complete front bumper
- Front spoilers

Front bumper protection film (Modis Code CHPP)

The complete protection film, on the other hand, includes coverage for the following areas:

- Complete front bumper
- Front spoiler
- Door sills
- Exterior mirrors
- Front hood
- Front and rear wheel well arches

Complete protection film (Modis Code CHIP)

PROTECTIVE FILMS

The main features of the protection films are:

- Multilayer polyurethane, with a thickness of 200 microns; it does not alter the vehicle's design
- Exceptionally clear, making it difficult to see, and free from "dimpling" effects
- Does not in any way alter the original paint colour
- Does not require cutting or splicing during installation
- The film absorbs impacts thanks to its elasticity, thereby protecting the vehicle's surface
- Protects against possible damage by chemical substances
- Available in gloss and matte versions, depending on the vehicle's paintwork
- Can be easily removed, leaving no trace and causing no harm to the vehicle's paintwork.

DEDICATION PLATE

The dedication plate, which is positioned in the center of the rear trim, can be personalized with an engraving (special dedication or the owner's name).

Silver dedication plate
(Modis Code DEDI)
